IT SUPPORT ENGINEER

IT Support Engineer with 2 years 3 months of experience providing Level 1 support to users via phone, email, Slack, and portal. Expertise in troubleshooting user desktop setups and remaining calm in difficult situations. Currently employed at Vectra Automation, Inc., where I am responsible for providing all IT support to users, including troubleshooting, Level 1 support, and end-user help desk support.

Through my current position, I have honed my skills in delivering end-user help desk support and have developed the ability to remain composed and effective in challenging situations.

KEY COMPETENCIES

Active Directory
Remote Troubleshooting
Technical Support

Global Service Desk
Azure AD
End User Support

Hardware Configuration
IT Asset Management
User Account Management

PROFESSIONAL EXPERIENCE

Vectra Automation, Inc.

Apr 2022 - Present
